PROFILE

B.Tech graduate in Information Technology building responsive web interfaces and practical application flows across frontend, backend, and data. Hands-on with JavaScript, React, TypeScript, Node.js, PostgreSQL, and Supabase. Interested in frontend, full-stack, and backend developer roles, including remote opportunities.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL, HTML, CSS **Frontend:** React, Vite, Tailwind CSS, Material UI, Bootstrap
Backend and data: Node.js, Express, REST APIs, PostgreSQL, Supabase, authentication, row-level security, SQL RPCs
Tools and concepts: Git, GitHub, VS Code, Google Generative AI, component-based development, object-oriented programming, data structures

SELECTED PROJECTS

Productivity Garden - active development

JavaScript, Vite, Supabase, PostgreSQL

Building a task-to-plant MVP with authentication, row-level security, database integrity constraints, and a transactional plant_seed() RPC. Tasks grow through a 20-minute, five-stage cycle before harvest; deployment and edge-case hardening are in progress.

Neural-Decider - live experiment

React, TypeScript, Google Generative AI, Recharts

Created a choice-based reflection experiment that uses AI to generate responses to user scenarios. An exploratory product concept, not a validated psychological assessment.

Iron-Forge - prototype

Node.js, Express, PostgreSQL

Developing a workout tracker with a PostgreSQL foundation for exercise, weight, and rep records. Frontend/backend integration and deployment remain in progress.

KeeperApp - live demo

React, Material UI

Built a responsive notes interface with note creation and deletion. Notes are held in page state and do not persist after refresh.

EXPERIENCE

Legal Transcriptor - Contract / Project Role | Percept Legal, Kolkata | 4 months

Transcribed court recordings with accurate speaker labels, completed files to daily client deadlines, and checked transcripts for discrepancies.

EDUCATION & CERTIFICATIONS

B.Tech, Information Technology - Guru Nanak Institute of Technology, Kolkata | June 2025 | CGPA 7.91

Full-Stack Web Developer (Udemy) | SQL, Data Structures, Introduction to Java and Object-Oriented Programming (Coursera)

INTERESTS

Gym | Martial arts | Guitar | Design
